

# iPad 2 CDMA LCD Assembly Replacement

Pre-req for antennas

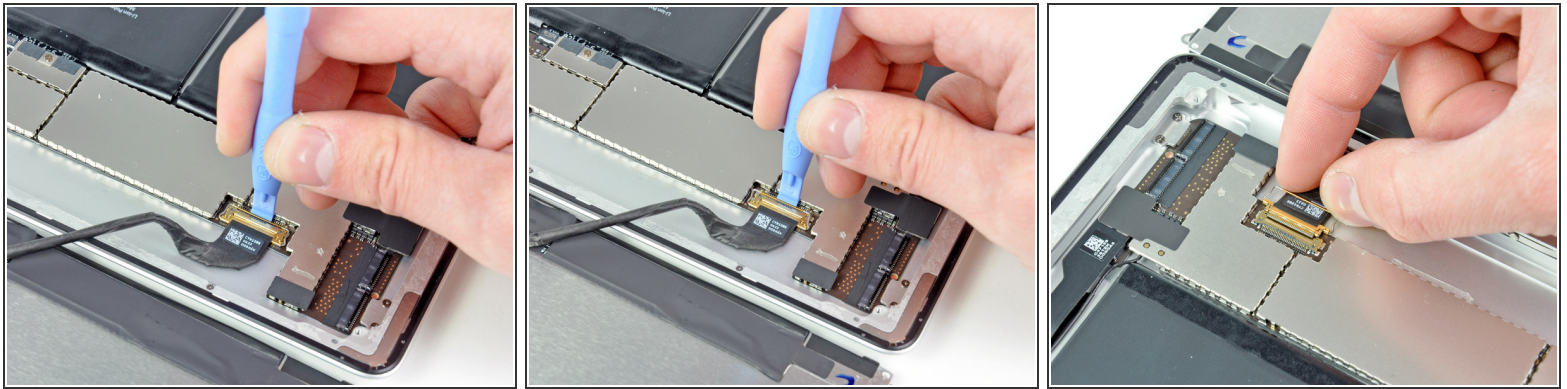

Written By: Jake Devincenzi

## INTRODUCTION

Pre-req for antennas

## Step 1 — LCD Assembly

- Carefully lay the LCD next to the rear panel.
  - Use a plastic opening tool to lift the display data cable lock upwards.
  - Pull the display data cable out of its socket.
- ⚠ Do not pull the connector upward as you disconnect it from its socket.

## Step 2

- Remove the LCD assembly from the rear panel assembly.

To reassemble your device, follow these instructions in reverse order.
